BISHOPVILLE, S. C., July 16, 1885. Mr. Editor: In my last communication 1 stated, (as I have since been informed) erroeously, that Miss Leila Melton was at home from College. The impression was made on my mind by a friend who was giving me the names of some of those recently at home from school. Among others he mentioned the name of Mr. Walter Melton (of Wofford College) and not listening as closely as I should have done, I mistook the name and three days later committed the inexcusable blunder. Assuring all concerned, that it was unintentional. I ask that my error may be charitably construed. Miss Leila Melton graduated with distinction at the Columbia Female College a year ago, and of course has not recently reurned from College.

The small quantity of corn bought and sold n this immediate neighborhood indicates that the farmers have come to the wise conclusion of planting more grain, and less cotton. Many are speaking of planting wheat the coming winter, as the conveniences for having it manufactured into delicious flour is so much better than it has been since the

ope, is not far in the future.

The value of resuming this old plan cannot be over estimated. The large amount of money annually spent for provisions will be kept among us, to be appropriated in a mancondition, and besides, we will be freed from the heavy burden of making cotton at a cost of eight cents per pound to purchase that which we can so easily and conveniently produce at home so much cheaper. Almost every farmer in the County can (if he were disposed to do so) select a few acres of rich land and by planting it in wheat make enough flour with little labor and expense for domestic use.

Mr. William Tunstall, a white citizen of this community, was arrested a few nights ago on a charge of bigamy. It seems, as the rumor goes, that a previous attempt had been made to arrest him, but the deputy, failing to find him, returned home; but last Tuesday night a party of four, headed by a colored deputy, surrounded the house in which he was staying and captured him, without the slighest resistance on his part. It is said that he was taken from the house, and bound with ropes then placed in a buggy and carried before Justice McDonald where he gave bond to answer to the charge at the next term of Court. It does not seem to me that such rough usage was entirely justifiable to the accused since it yet remains to be proven that he is guilty of the charge.

A colored man, who it is said hailed from Florence, S. C., was drowned in Lynch's River to-day while riding in a boat. Up to the time of this writing his body has not been recovered. No one here knew his name.

The Trustees of the Lynchburg Academy have been successful in procuring the services of Prof. I. C. Buchannan, of Winnsboro, S. C., to take charge of the school at this place. This young and talented Professor has taught here before and gave general satisfaction; and he will receive a warm welcome into this community again.
